Chairman—Executive Committee

September 2, 1966

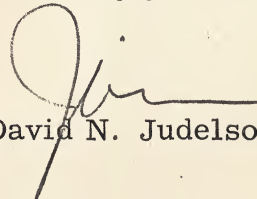

Mr. John T. Soja, President
Rocket Jet Engineering Corp.
1311 Grand Central Avenue
Glendale, California 91201

Dear John:

I want to express my sincere appreciation for the wonderful job you did last year in organizing Rocket Jet so that it achieved the results which it did. I know that you have been doing everything possible to bring Rocket Jet back to the highly efficient and profitable operation that it is and it appears that your prediction that this would happen has come true.

So again, John, congratulations to you and all your people for what you have done and now let's see if you can't do better in the coming year.

Sincerely yours,

David N. Judelson
